

Do you think the history & heritage of coal mining in Pennsylvania is cool?

Do you know that much of that history is just slipping away?

Do you think it's worth it to preserve our unique coal mining heritage for future generations?

How about you!...Do you think you might like to be a part in preserving a piece of that history?

Since you've just answered YES four times, you really need to know about a unique conference that's right for you!

Pennsylvania Coal Mining Heritage Conference

August 13 & 14, 2008, Ramada Inn, State College

It promises to be informative, fun and affordable. You'll see presentations on the rich heritage of coal mining and existing efforts to preserve it.

You'll meet like-minded folks with whom you'll be able to exchange stories, ideas and strategies.

The conference website will have all the details

<http://treatminewater.com>

Please be patient until the end of March for the website to be ready for prime time.
